

DR.HOMI BHABHA STATE UNIVERSITY,MUMBAI

SIMSREE EXAMINATIONS — JANUARY 2025

Subject : Managerial Economics

Course Code : (HBMMS-C103)

Class : MMS

Semester – I

Maximum Marks : 30

Maximum Time : 1 Hours 30 Minutes

Date : 31/01/2025

Instructions

1. Q.1 is a compulsory for 10 marks
2. Attempt any 2 from Q.2 to Q.5 for 10 marks each
3. Draw well-labelled graphs wherever required
4. Use of non-programmable scientific calculator is permitted

Q.1 Firm LMN wants to be advised about its monthly demand trends in January 2025. It approached PQR Consultant Service in this matter. PQR Consultant Service studied Firm LMN monthly demand records from Jan 2024 to Nov 2024 and obtained the following Demand Trend (DT) (in '00 units):

(Mth, DT): (Jan, 87); (Feb, 79); (Mar, 65); (Apr, 105); (May, 108); (Jun, 107);

(Jul, 98); (Aug, 80); (Sept, 77); (Oct, 75); (Nov, 72)

To advice Firm LMN, PQR Consultant Services needs to statistically extract the following information, which a PQR Consultant Services worker is needed to estimate/articulate on:

- a. Find the Demand function of Firm LMN. (05)
- b. Using forecasting technique, find demand for Firm LMN's product in Jan '25 (01)
- c. Assuming that the Firm LMN's anticipated total receipts from this product is Rs 3 lakh for Jan 2025, find the price that this firm can charge in Jan 2025. (01)
- d. From the data given and the regression trend line obtained, show that this firm operates under imperfectly competitive conditions. (03)

Q.2 Discuss earnings of normal profits under perfect competition and under monopoly. (10)

Q.3 Examine profits maximization under perfect competition. (Use only the Marginal Method) (10)

Q.4 Elaborate on the operations Dominant Firm Price Leadership model (10)

Q.5 If TC function of a firm is $C = 0.51q^3 - 7q^2 + 55.5q + 500$ and AR function is $p = -4q + 200$,

then do as directed: (Note: q = quantity, p = price)

(Marks: 2, 2, 3, 3)

- a. Derive the profit function of this firm.
- b. State 2 reasons to prove that this firm is not operating under perfect competition.
- c. Estimate the optimum output this firm can produce.
- d. Find the price this firm can charge if it opts for sales maximization.

SIMSREE EXAMINATIONS — JANUARY 2025

Subject : Operations Management

Course Code : (HBMMS-C107)

Class : MMS

Semester – I

Maximum Marks : 60

Maximum Time : 2 Hours 30 Minutes

Date : 24/01/2025

N.B.

1) Q1 is compulsory, and it carries 20 marks

2) Attempt any four questions from question no. 2 to 6. Each question carries 10 marks

Q1)

- a) A book binder has one printing press, one binding machine and the manuscripts of a number of books. The time required to perform the printing and binding operations for each book are given below. Determine the order in which books should be processed in order to minimize the total time required to turn out all the books. Also find the idle time for both the machines

JOB	1	2	3	4	5	6
M1	30	120	50	20	90	110
M2	80	100	90	60	30	10

- b) Following table shows actual demand of refrigerators of over a period of past 7 weeks

week	1	2	3	4	5	6	7
Demand	39	44	40	45	38	43	39

Using exponential smoothing method ($\alpha = 0.2$) determine forecasted demand for 8th week also find MAD, MSE and MAPE

2) Explain acceptance sampling in detail. What are the single and double sampling plans?

3) Explain the factors influencing plant layout also Explain differences between product layout and Process layout.

4) Explain concept of value engineering in details with suitable case.

5) Explain 2 cases of supply chain failure and analyse reasons behind their failure

6) What is role of MPS in MRP? Describe the steps followed to make a material requirement planning

GP = 10100
NP = -6290
total assets = 90260

Adjustments:

1. Closing Stock is Rs.15000 (Market value is Rs.10000)
2. Depreciate all tangible assets by 8%
3. Prepaid insurance is Rs.200
4. Salaries outstanding is Rs.800 and outstanding wages is Rs.350
5. Further bad debts were of Rs.300 and it was decided to make a Provision for Bad & Doubtful debts of 3%

Attempt any TWO of the following FOUR questions, each of 10 marks.

Q 2. 10 marks

From the Financial Statements prepared by you, calculate

- ✓ a. Current Ratio = 5.275336
- ✓ b. Acid Test Ratio/Quick Ratio = 4.360538
- ✓ c. Debt Equity Ratio = 1.504333
- ✓ d. Inventory Turnover Ratio = 2.86333
- ✓ e. Net Working Capital = 47670

Q 3. 10 marks

Journalize the following transactions in the Journal of Mr. Seth

- a. Mr. Seth commenced business with Rs.50000 cash on 1/04/'24
- b. 12/04/'24-Cash Purchase of Rs.8000 from Hari
- c. 13/04/'24-Cash Sales of Rs.3000 to Fiesta Dealers.
- d. 14/04/'24-Credit Purchases of Rs.10000 from Prasad
- e. 15/04/'24-Credit Sales to Bakshi of Rs.20000
- f. 16/04/'24-Paid Prasad Rs.9500 in full and final settlement.
- g. 19/04/'24-Sundry expenses of Rs.600
- h. 19/04/'24-Paid Coolie charges of Rs.50
- i. 20/04/'24-Received from Bakshi Rs.19500 in full & final settlement
- j. 25/04/'24-Paid home rent of Mr. Seth of Rs.1000.

Q 4. 10 marks

Write a short note on "Cash Flow Statement" and give a Pro Forma of the same, and explain the Investing Activity.

Q 5. 10 marks

a. Explain with **example** the following Accounting Principles

(i) Accrual (ii) Business Entity (iii) Materiality (iv) Cost (v) Accrual

b. Explain the three main reasons for depreciation, with examples.

Assume that an asset was purchased in an organization at the beginning of the accounting year of 2021-22 for Rs.20000. It was decided to depreciate it by 10% by the Written Down Value Method. What would its book value be at the end of accounting year 2023-24?

SIMSREE EXAMINATIONS — JANUARY 2025

Subject : Managerial Communication

Course Code : (HBMMS-E109)

Class : MMS

Semester – I

Maximum Marks : 30

Maximum Time : 1 Hours 30 Minutes

Date : 29/01/2025

NB : 1. Question Number 1 is Compulsory and all its Sub-questions have to be answered, each of which Carry 2.5 Marks ;

2. Answer Any TWO Questions from Q.2 – Q.4, each of which carries 10 Marks;

3. Provide Examples / Illustrations / Cases wherever possible.

Q.1 Effective Communication skills play a vital role in all aspects of life ; be in work or developing social relationships. Communication skills are of utmost importance. Proper communication skills help people in understanding each other and work together. But, everyone is not lucky enough to get the exposure of the real world. Things that happen in the beginning of our life often leave an indelible mark on us. Our memories are vital because they shape our experiences, relations and sense of self.

Many students who are hardworking, were born in a small towns studying in diverse vernacular medium schools facing severe problem while speaking in English, not because they didn't get exposure in their school life but the Society in which they were living was not used to it and the place in which they used to live was surrounded by non-English speaking populace. Hence, they hesitate in interacting with those people who speak perfect English, even though many of them are admitted in English medium schools. But, the result was disappointing every time. Many of them were in fact adept students in their subjects, sports, and various extracurricular activities. But, their major weaknesses that remained was to speak English with perfection. Many of them who went on study in colleges and universities for higher education couldn't write and speak the language very fluently. They realized that they can't survive in workplace and their professional circuit without English. Many of them do not even make an attempt to communicate in English due to the fear that other people will end up making fun for their language mistakes, scolding by teachers in the class for their poor usage of grammar and pronunciation, However, it is advisable that they should continue to communicate in English without losing hope on their speaking skills. Students have to successfully overcome their struggle and approach their life with confidence. When a Company appears for a placement programme in college, speaking skills with a polished approach is a must from the student side. If they fail to impress, rejection is very much evident.

In order to avoid the pitiable situation, each student has to start working on their speaking skills and get through their Group Discussion and Personal Interview process. They have to do self-discovery and work on continuous improvement. If there is no struggle, there is no progress. They have to climb the ladder and achieve their cherished goal. They have to take initiative in reading, writing and speaking in their daily life. The zeal of learning English has to be intense in their action. Without any procrastination, the students should gladly proceed towards achieving their goal of effective English Communication.

Questions :

- (a) What are all the environment factors that could affect your Communication Skills ?
2.5 Marks
- (b) Do you agree with this statement "You are a product of your surroundings." ? — Justify.
2.5 Marks
- (c) What measures one can follow in order to enhance Communication Skills ?
2.5 Marks
- (d) Do you think negative motivation is necessary for enhancing your speaking skills? Explain.
2.5 Marks
- Q.2 Explain different types of Listening in elaborate details.
10 Marks
- Q.3 Name and describe the communicational capabilities of a celebrity (not from Religious or Political background) whom you admire for his / her Communication skills. Give elaborate reasons for your answers.
10 Marks
- Q.4 Explain the 7 C's of Communication in elaborate details.
10 Marks

SIMSREE EXAMINATIONS — JANUARY 2025

Subject : Information Technology for Business

Course Code : (HBMMS-C108)

Class : MMS

Semester – I

Maximum Marks : 60

Maximum Time : 2 Hours 30 Minutes

Date : 30/01/2025

NB : 1. Question Number 1 is Compulsory and all its Sub-questions have to be answered, each of which Carry 5 Marks ;

2. Answer Any FOUR Questions from Q.2 – Q.6, each of which carries 10 Marks;

3. Provide Examples / Illustrations / Cases wherever possible.

Q.1 A small private sector firm employed not more than 250 people and its business was spread over two adjacent cities. It had deployed Intranet to facilitate communication across the firm.

The firm had problem in preparing the budget and forecasting annually. The issues arose due to manual budgeting process followed by the firm, in which several human resources from finance department were engaged for several weeks. Since the firm had multiple offices in several locations of the two cities, it made the process of data collection difficult. Also budgeting was impacted due to this, adding to the complexity of distribution across different locations, which was manual. Further revisions in the budget were considerably slowed down due to irregular collection of corrections proposed in the budget and finalizing the same. This process was costly due to large number of days for which the finance department was engaged (and worked overtime for several days), courier charges for reception and distribution, untimely delivery, and hence lower quality of the prepared budget. The firm was thus looking for a technology which could be centrally and easily shared and reflect the changes made individually.

As a solution, the firm chose statistical Excel based spread sheet to aid in budgeting process and consolidate the information from different locations of the firm into the master budget. One reason for the choice was ease of availability, usage and highly cost effective compared to other possible solutions. The finance department used formulae embedded in the Excel workbook for budgeting calculations, and links to input data from different sources. The workbook could easily be shared across the firm, which removed the transportation charges. Also the facility of protecting the workbook by inserting a password prevented its misuse by unwanted users. And the department could easily track changes in the Excel book made by any department. This facility of tracking changes and sharing reduced the time, man hours spent to develop the budget and cost to prepare the same drastically. This application also allowed the firm to generate reports and statements as required throughout the year and not just at the closing or start of a financial year. This not only saved the time but also the cost and labour input of the firm. At the same time, it increased the accuracy and the budget as well was under a semblance of control.

Questions :

- (a) Write a detailed analyses of the above case and specify the Information Technology issues faced by the firm in the given case ? **5 Marks**
- (b) If you are the Information Technology Manager in the firm, what other solutions would you propose in such a situation? (Mention **at least Three** unique solutions) **5 Marks**
- (c) Do you think Excel is the appropriate solution in the case ? Justify your answer. **5 Marks**
- (d) If the data increases manifold or the firm spreads nationally across several situations and locations, then do you think the solution offered by Excel would still be feasible ? Give elaborate reasons for your answer. **5 Marks**

Q.2 Give an overview of the securities issues faced by modern day businesses with respect to Information Technology? Also, suggest ways to check the misuse of Information Technology in modern day Business and Commerce. **10 Marks**

Q.3 Giving appropriate examples, explain the concepts of :

- a. URL
- b. Machine Learning
- c. Cloud Computing

10 Marks

Q.4 Define and elaborately distinguish between Knowledge, Information and Data. **10 Marks**

Q.5 What is ERP ? Explain important factors helpful in successful ERP implementation.

Q.6 Define and elaborately distinguish between Internet, Intranet and Extranet. **10 Marks**

10 Marks

Subject : Legal and Tax Aspects of Business

Course Code : (HBMMS-E111)

Class : MMS

Semester – I

Maximum Marks : 30

Maximum Time : 1 Hours 30 Minutes

Date : 01/02/2025

NOTES :

1. Question No.1 is **Compulsory**, carrying 10 marks.
2. Answer any Two questions from the remaining, carrying 10 marks each.
3. Any additional question answered after the first three will not be eligible for marks.
4. Start each answer on a **fresh page**.
5. Be precise in your answers. No marks will be assigned for irrelevant answers.

Questions:

(MARKS)

1.	(Rs.)	(10)
Gross annual salary of Ms. Monica Grover	3,15,000	
Medical expenditure directly paid by employer to private practitioner	25,000	
Medical expenditure directly paid to hospital approved by Chief Commissioner of Income-tax	50,000	
Reimbursement of medical expenses incurred by the employee in a hospital approved by the Chief Commissioner	30,000	
✓ House Rent Allowance	90,000	
Value of ESOPs under SEBI scheme	1,50,000	
Entertainment Allowance	1,00,000	
Contribution to provident fund	12,000	
LIC premium paid	5,000	
Contribution to PPF	3,000	
Purchase of NSC (VIII)	10,000	
Repayment of principal of Housing Loan	32,000	
Subscription to UTI's Mutual Fund.	8,000	

Calculate the tax payable for assessment year 2024-25.

2. Analyze in detail the provisions pertaining to depreciation allowance under section 32 of the Income-tax Act, 1961, discussing in particular the concept of gross block of assets, conditions for grant of depreciation, and the concept of unabsorbed depreciation. What tax planning decision would you take in respect of leasing an asset or purchasing it.
3. What are the provisions for business re-organizations pertaining to amalgamations, de-mergers, and conversion of partnership firm into a limited company? The implications should be discussed in respect of both the following :

 - (a) carry forward of losses and unabsorbed depreciation; and
 - (b) capital gains.
4. Discuss the concept of "transfer" of a capital asset. Why is the distinction between capital asset and stock-in-trade a crucial one from the point of view of taxation? Explain in detail, giving a suitable illustration.

3. Provide Examples / Illustrations / Cases wherever possible.

Q.1 Anjaana Clinics, is a modern clinic, specialising in the medical care of the well-to-do populace at lesser than normal costs. Dr. Anitha had opened the clinic three years ago, in Thane hiring another full-time doctor, a staff of three nurses and an office assistant. The clinic operates Monday through Friday during regular business hours, with half days on Saturdays and extended hours on Wednesday evenings. Both doctors work during the week and take turns covering Wednesday evenings and Saturdays. Dr. Anitha opened the clinic with the intent of providing outpatients care although overnight services are provided for a few surgical patients of course at additional costs. No other specialised services are offered. The facility for the clinic was designed with a spacious waiting and reception area. The examining and surgical rooms are in the rear, just large enough to accommodate their initial purpose. As time passed, however, the number of patients requesting specialised services has increased. Initially the requests were few, so Anitha tried to accommodate them. One of the nurses, Sister Alba who was also trained in grooming services, and was close to Anitha from their respective internship days began to alternate between her regular duties and attending patients privately. At first this was not a problem. However, as the number of patients being tended by Sister Alba privately groomed increased, the flow of work began to be interrupted. Patients would wait for Alba to see them as her charges were lesser too. Further, this meant that the focus of all including of course Anitha and Alba started getting distracted.

The number of customers and patients requesting Alba's tending services was growing rapidly. In fact, now, Alba started giving some of her earnings to the Clinic too so as to compensate for her using of the shared facilities. Customers wanted to see Alba for a "package" of examining, grooming, and even minor procedures requiring non specialised monitoring. The space for grooming and other minor services was rapidly taking over room for other tasks. Also, the other staff was not clearly comfortable with the privileges that Alba was getting from the Anjana Clinics.

One day, Dr. Anitha sat at her desk wondering how to handle the operations and egos. The dilemma she was obviously facing was that, she started her business as a medical clinic but found that she was no longer sure what business she was in. She was not sure what to do of the grown problem that accosted her. Her main clinic revenue was almost lesser than what Alba would be earning even after sharing the revenue in parts with Anjaana Clinics.

Questions :

- (a) Identify the management related problems that Dr. Anitha is having at Anjaana Clinics.
{Name at least Four unique problems}. **2.5 Marks**
- (b) Identify the managerial services currently being offered at the clinic ? How is this different from the initial purpose of the clinic ? **2.5 Marks**
- (c) Enlist any Four ways in which to keep employees of an Organisation without disturbing the profitability of an Organisation in modern businesses. **2.5 Marks**
- (d) Advise Dr. Anitha as to what should do to overcome the problems she is currently experiencing ? **2.5 Marks**
- Q.2** Name Any Two famous personalities from the fields of Business Or Economy Or Education Or Sports Or Media whom you admire as being good leaders. Give elaborate reasons for your answers. **10 Marks**
- Q.3** Explain elaborately the POSDCORB model as given by Luther Gulick. **10 Marks**
- Q.4** Define Management. Also, discuss if Management is Arts or Science. Give reasons for your answer. **10 Marks**

SIMSREE EXAMINATIONS — JANUARY 2025

Subject: Business Statistics

Course Code : (HBMMS-C102)

Class : MMS

Semester – I

Maximum Marks : 30

Maximum Time : 1 Hours 30 Minutes

Date : 04/02/2025

NB : 1. Question Number 1 is Compulsory and all its Sub-questions have to be answered ;

2. Answer Any TWO Questions from Q.2 – Q.4, each of which carries 10 Marks;

3. Provide Examples / Illustrations / Cases wherever possible.

Q.1 a. Define the term Business Statistics and explain it's salient features. 2 Marks

b. Calculate Median, Upper quartiles, 3rd Decile from the following data :

Heights in Cm : 145-150 150-155 155-160 160-165 165-170 170-175 175-180

No. of persons : 2 4 12 22 30 25 10

4 Marks

c. From the prices of Shares A & B respectively given below, state which share is more stable in value. Give elaborate working and reasons for your answer. 4 Marks

Price of Share A : 55 54 52 53 56 58 52 50 51 49

Price of share B : 108 107 105 105 106 107 104 103 104 101

Q.2 a. Elaborately explain and discuss the various difference between Parametric and Non-Parametric tests ? 4 Marks

b. Calculate Spearman's Rank Correlation Co-efficient between Advertisement Costs and Sales from the following data : (Provide complete working and give reasoned Conclusion of your findings). 6 Marks

Advertisement Costs in Lakhs Rupees : 39 65 62 90 82 75 25 98 36 78

Sales in Lakhs Rupees : 47 53 58 86 62 68 60 91 51 84

Q.3 a. Explain the Procedure of Hypothesis Test and describe the various stages involved in the Hypotheses Test. 4 Marks

b. Malseth Nagar Palika surveyed the travel preferences of people who travelled to work by train or bus. The initial analysis suggested that 1 in 5 people travelled by train to work. If 5 people are interviewed, what is the probability that :

- i) Exactly 3 prefer travelling by train
- ii) Three or more prefer travelling by train and
- iii) Less than 3 prefer travelling by train.

(Provide complete working and give reasoned Conclusion of your findings). **6 Marks**

Q.4 a. Discuss the advantages and limitations of Diagrams and Graphs in Statistics. **3 Marks**

b. For a certain frequency table which has only been partly reproduced here, the Mean was found to be 1.46 . Calculate the missing frequencies :

No. of Accidents	:	0	1	2	3	4	5	
No. of days	:	46	?	?	25	10	5	4 Marks
N=200								

c. Mention the various Rules of Probability with formulae. **3 Marks**
