

Internship Opportunity: Product Development – Online Minor Demat Account (Child Wealth)

Location: Mumbai

About the Role:

We are looking for Candidates to join our internship program and work on an exciting project:

Design, develop, and launch an Online Minor Demat Account (Child Wealth) product from concept to live implementation.

Key Responsibilities:

- Conduct market research and competitor analysis for minor Demat accounts.
- Define product requirements and create a roadmap for development.
- Collaborate with cross-functional teams (Tech, Compliance, Operations) to ensure smooth execution.
- Work on UI/UX design inputs for a seamless customer experience.
- Assist in testing, feedback collection, and go-live activities.

What We're Looking For:

- **Creative thinkers** with strong problem-solving skills.
- **Knowledge of stock markets** and financial products.
- Excellent communication and analytical abilities.
- Ability to work independently and in a team environment.

What You'll Gain:

- Hands-on experience in **end-to-end product development**.
- Exposure to the **financial services industry** and regulatory frameworks.
- Opportunity to make a **real impact** by launching a customer-facing product.
